On 17.05.2013 I moved in a mixed flock of broiler chickens, 10.000 chicks.

Conclusions:

- Mortality was reduced by 50%;
- Weight has increased in older chickens by 20%;
- At manure was 50% less crust;
- Consumption of feed per kilogram of increment was reduced by 20%;
- Chickens are more active.

17.05.2013 sem vselil mešano jato piščancev brojlerjev 10.000 komadov.

Že prvi dan sem doziral preko vode z dozatorjem 1,5%

Ugotovitve:

- Umrljivost se je zmanjšala za 50%
- Teža se je povečala pri starejših piščancih za 20%
- Pri nostilju je bilo manj skorje za 50%
- Poraba krme na 1kg prirastka se je zmanjšala za 20%
- Piščanci so bolj aktivni
