

## GRN047799 Greenacle Pig Nutrition and Sanitation Flier

© Copyright Slavko Pecanac (Greenacle) please read copyright, disclaimer and warranty statement [here](#).

For more information about this and other products please see our [library for additional documentation](#).

Greenacle Pig added to poultry water supply provides multiple health and sanitation benefits. Greenacle Pig is:

- Pure Ascophyllum nodosum marine algae from the cold, arctic waters off Norway – no additives
- Nutritionally rich - chelated, colloidal, and optimally balanced = BIO-AVAILABLE
- Full of naturally-occurring complex enzymes and pro-biotic compounds = BIO-ACTIVE

Our product provides the following nutritional benefits:

- Better feed utilization – 10% improvement in FCR
- 10% yield increases
- Increased musculature
- Increased immunity
- Breeding sows:
- Increased weight gain in suckling pigs = earlier weaning = extra breeding cycle annually
- Improved live pig births & pigs/litter rates
- NH<sub>3</sub> transformed to NH<sub>4</sub> in ion-exchange reducing ammonia in manure
- Better overall health – increased fertility + less anti-biotic usage
- Increased profitability from a **GREEN** alternative.

### Feed Supplement:

**Granulate:** 1g per 100kg body weight  
**Note: Liquid preparations** also available for use in drinking water or wet mash.

Sanitation: our product works on the barn surfaces and when added to manure pits, offers a complete sanitation solution. Our product means:

- Dramatic odor reduction
- Reduced Noxious gases – ammonia (NH<sub>3</sub>), methane (CH<sub>4</sub>), hydrogen sulfide (H<sub>2</sub>S)
- No respiratory problems (pigs, farm managers and communities)
- Manure is homogeneous
- No crusting
- Easy to clean, pump
- Less manure deposits on flooring
- NH<sub>3</sub> is transformed to NH<sub>4</sub> in ion-exchange (as in the digestive tract)
- Manure can spread immediately as available nitrogen fertilizer without cauterizing effect.
- Pigs are drier, cleaner, healthier

### Sanitation Treatment:

**Liquid Concentrate:** 0.2L per m<sup>3</sup> of manure

Our full product line is certified under the European Community which governs organic production, labeling and control of animal and human feedstuffs. All of our products can be sold and used in the eco-systems of agriculture in all member states of the European Community without special permission.
